PRESS RELEASE: ReEnergy Africa Summit, 2022

After our meeting with His Excellency Stanislas Kamanzi Rwanda High Commissioner of Rwanda to Nigeria at Our Lagos Nigeria Office, October 7th, 2022 | 11am WAT.

ReEnergy Africa wishes to inform our partners, speakers, delegates and all relevant stakeholders that its 3rd ReEnergy Africa Annual Summit scheduled to hold as an In-person event in Kigali, Rwanda will now be hosted virtually.

The in-person summit has now been postponed to 2023. The reasons for postponing the same became necessary following the submissions from the host country on a number of exigencies that will make it near impossible to host the event as originally planned. We apologize for the inconveniences caused by this development.

The virtual summit will still be held on the slated dates (26th - 27th October, 2022), whilst the summit agendas, goals and activities remains unchanged.

Furthermore, the **Genesis1000 Energy Impact** - a non-for-profit CSR initiative project will be held at our partner facilities - **Owo Digital Centre** where 100 youths from **IJEBU-OWO** will be trained and 30 households from **IJEBU-OWO** Town in Ondo State, Nigeria will be provided and empowered with tier 2-3 requirements for a standalone solar home systems.

To secure your place for the 3rd ReEnergy Africa virtual annual summit 26th - 27th October 2022. Register now for FREE <https://lnkd.in/dna7mjnq>

We are better Together with you. **#AFRICAFirst**.

Yours faithfully,
For: ReEnergy Africa Summit
(Genesis1000 Energy Impact Initiative)
